

## 45% of pregnant women in the UK feel discriminated against at work\*

### Pregnancy in the workplace needn't be a bumpy ride

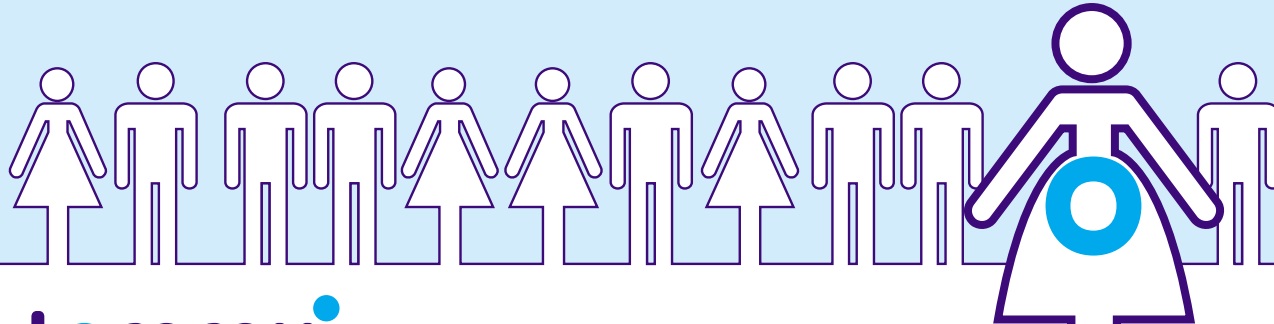

Becoming a pregnancy-friendly workplace is easier than you might think. Tommy's Pregnancy Accreditation Programme delivers all the help you need to guide your employees and their managers through healthier, happier working pregnancies.

This unique programme will benefit you as much as your employees. You become an employer of choice, retain staff and save money. Your employees have the best chance of a healthy, full-term baby.

Programme benefits include informative, easy-to-read guides for every pregnant employee and their manager, access to a dedicated pregnancy health information line, and use of an accreditation logo.

Our guides include information on **all** aspects of working pregnancy, including legal rights, obligations, risk assessments, pregnancy health, how physical changes impact on the workplace, managing workloads and stress.

**For more information on the programme and how to join, please contact Tommy's on 020 7398 3420 or visit [www.workingpregnancy.org](http://www.workingpregnancy.org)**
